# Blessed G/Michael Catholic Secondary School

## Semester 1 Geography Mid1 Examination for Grade9

Academic Year: 2024 / 2018 E.C. Time Allowed: 1:30'

Name: _____ Grade & Sec: Grade9 _____ R.No: _____

**I. Match the items under Column A with the correct descriptions under Column B.**

**1.** Match: Which prominent mountain peak belongs to The Plateau of Tigray?
- **A.** Mount Ras Dashen
- **B.** Mount Ambalage
- **C.** Mount Abbuye Meda
- **D.** Gamo-Konso Highlands

**2.** Match: Which highest Ethiopian mountain is situated in The North Central Massif?
- **A.** Mount Ras Dashen
- **B.** Mount Batu
- **C.** Mount Ambalage
- **D.** Mount Guna

**3.** Match: Which peak is located on The Plateau of Shewa?
- **A.** Mount Abbuye Meda
- **B.** Mount Ras Dashen
- **C.** Mount Ambalage
- **D.** Gamo-Konso

**4.** Match: Which highlands are located in The Southwestern Highlands of Ethiopia?
- **A.** Gamo-Konso Highlands
- **B.** Simien Massif
- **C.** Tigray Plateau
- **D.** Hararghe Massif

**5.** Match: The Mesozoic geological era is characterized biologically by:
- **A.** Predominance of invertebrates
- **B.** Predominance of reptiles and dinosaurs
- **C.** Evolution of humans
- **D.** Origin of simple bacteria

**6.** Match: The Paleozoic geological era is characterized biologically by:
- **A.** Predominance of invertebrates
- **B.** Predominance of reptiles
- **C.** Domination of mammals
- **D.** Rise of modern birds

**II. Choose the best answer among the given alternatives.**

____ **7.** Which of the following elements of geographical study is related to Demography?

**A.** Geomorphology **B.** Climatology **C.** Population **D.** Biogeography

____ **8.** Which sub-division of the lowlands of Ethiopia is found in the northwestern part of the country?

**A.** The Omo-Ghibe Lowlands
**B.** The Erkele-Ogaden Lowlands
**C.** The Borena Lowlands
**D.** The Tekeze-Angereb Lowlands

____ **9.** Which physiographic division of Ethiopia is highly affected by volcanic eruptions and earthquakes?

**A.** Highlands **B.** Lowlands **C.** Rift Valley **D.** Plateau

____ **10.** _____ and _____ are the highest and lowest places in Ethiopia respectively.

**A.** Batu and Tendaho **B.** Ras Dashen and Dallol **C.** Ras Dashen and Qatta **D.** Batu and Ogaden

____ **11.** Which one of the following combinations of mountains and highlands of Ethiopia is NOT CORRECT?

**A.** Gara muleta -> The Plateau of Tigray
**B.** Assimba -> The Bale Massif
**C.** Abbuye Meda -> The Plateau of Shewa
**D.** Kolo -> The North Central Massif

____ **12.** Which plateau serves as a watershed between the Awash and Abay river basins?

**A.** Mt of Tigray **B.** Mt of Southwestern **C.** Mt of Shewa **D.** Mt of Central massifs

____ **13.** The Great East African Rift Valley extends from _____ to _____

**A.** China to Mozambique **B.** Syria to Chewbahir **C.** Turkey to Tanzania **D.** Syria to Mozambique

____ **14.** Geologically, which area is the most unstable part of Ethiopia?

**A.** The north western highland
**B.** The rift valley
**C.** The north central massifs
**D.** The Abay gorge

____ **15.** Which part of the Geosphere is termed as the rock (solid) layer of the earth?

**A.** Biosphere **B.** Atmosphere **C.** Lithosphere **D.** Hydrosphere

____ **16.** Dinosaurs disappeared from the earth during the:

**A.** Early of Mesozoic **B.** End of Mesozoic **C.** Early of Cenozoic **D.** End of Paleozoic

____ **17.** Series trapping lava and extensive volcanic eruptions were common in Ethiopia during the:

**A.** Mesozoic era **B.** Precambrian era **C.** Cenozoic era **D.** Paleozoic era

____ **18.** Which of the following is not an endogenic (internal) force?

**A.** Volcanism **B.** Faulting **C.** Erosion **D.** Folding

____ **19.** Upper sandstone of Ethiopia was deposited during the _____ period.

**A.** Triassic **B.** Cretaceous **C.** Jurassic **D.** Quaternary

____ **20.** The extreme point that lies at the westernmost tip of Ethiopia is:

**A.** Ogaden **B.** Akobo **C.** Moyale **D.** Badime

____ **21.** Which neighboring country shares the longest boundary line with Ethiopia?

**A.** Eritrea **B.** Djibouti **C.** Somalia **D.** Sudan

____ **22.** The most overlying Mesozoic rock layer in Ethiopia is:

**A.** Hintalo limestone **B.** Upper sandstone **C.** Adigrat sandstone **D.** Basement complex

____ **23.** Among the following fields of physical geography, which one studies the forces that change land forms?

**A.** Geomorphology **B.** Soil geography **C.** Climatology **D.** Ocean geography

____ **24.** The present land forms of Ethiopia mainly resulted from the geologic events of:

**A.** The Paleozoic era
**B.** The Precambrian era
**C.** Tertiary and quaternary periods
**D.** The Jurassic and Triassic periods

____ **25.** Which areas of the following highlands of Ethiopia are the wettest?

**A.** The Bale massifs
**B.** The Shewan plateaus
**C.** The south western highlands
**D.** The North central massifs

____ **26.** What makes Ethiopia "the roof of North-Eastern" Africa?

**A.** Its compact shape
**B.** Its large proportion of highlands
**C.** Its large proportion of Arable land
**D.** Its large proportion of rivers

____ **27.** As Adigrat sandstone is to Triassic period, then Hintalo limestone is to:

**A.** Quaternary period **B.** Cretaceous period **C.** Tertiary period **D.** Jurassic period

____ **28.** Which geological era is known as an era of amphibians?

**A.** Cenozoic **B.** Mesozoic **C.** Paleozoic **D.** Precambrian

____ **29.** One can associate the Cenozoic era in Ethiopia with the formation of extensive:

**A.** Metamorphic rock **B.** Sedimentary rock **C.** Changed rock **D.** Igneous rock

____ **30.** The plateau of Tigray is separated from the plateaus of Eritrea by the:

**A.** Abbay River **B.** Mereb River **C.** Genale River **D.** Tekeze River

____ **31.** Which of the following statements is correct about the Great East African Rift Valley?

**A.** It extends from Syria to Mozambique.
**B.** It is formed as a result of folding.
**C.** It is the second largest in the world.
**D.** All Ethiopia lakes are found in the rift-Valley.
